PROFESSIONAL SUMMARY

Computer Science student with hands-on experience building and maintaining web applications across full-stack JavaScript (React.js, Next.js, Node.js), WordPress, and Java/SQL-based coursework. Comfortable implementing new features, debugging and optimizing applications, and working with REST APIs, JSON, and both relational (MySQL, PostgreSQL) and NoSQL (MongoDB) databases. Experienced with Git/GitHub version control, responsive and cross-browser-compatible web design, and collaborating with developers, designers, and stakeholders throughout the Software Development Life Cycle (SDLC).

EDUCATION

SZABIST University

Bachelor of Science in Computer Science; CGPA: 3.74/4.00

Islamabad, Pakistan

Sep 2023 – Expected Jun 2027

EXPERIENCE

Software Development Intern

JazzWorld (Teknosys)

Aug 2026 – Present

Islamabad, Pakistan

- Building a multi-tenant CMS e-commerce system using NestJS, PostgreSQL (via Supabase), and Drizzle ORM
- Fixed a privilege escalation vulnerability in the authentication registration flow
- Implementing a StoreAccessService to enforce store ownership and tenant-level access control across Admin, Partner, and Customer portals
- Contributing to the Next.js frontend powering the Admin, Partner, and Customer portals

Full Stack Web Development Intern

Developers Hub Corporation

Apr 2026 – May 2026

Islamabad, Pakistan

- Built a Truck Dispatching Management System using React.js and MongoDB for a real-world client project
- Designed and implemented a responsive React frontend while integrating backend REST APIs
- Collaborated with a team lead using Git/GitHub workflows to maintain code cleanliness and version control

WordPress Development Intern

Watch Times (Media House)

Jul 2024 – Sep 2024

Islamabad, Pakistan

- Designed and developed professional WordPress websites, including business portfolios and WooCommerce e-commerce stores
- Customized premium themes and built pixel-perfect responsive layouts using Elementor Page Builder

PROJECTS

KaamYab Pakistan – Opportunity Finder Platform | *Next.js, React, Tailwind CSS, Supabase, Clerk* [Live Demo](#)

- Developed and deployed a full-stack web application using Next.js 14, React 19, and Tailwind CSS, connecting Pakistani youth with jobs, scholarships, internships, remote work, and training opportunities across 20+ cities
- Implemented secure user authentication and session management using Clerk (Google OAuth + email/password)
- Designed and integrated a PostgreSQL database via Supabase, including schema design, Row Level Security (RLS) policies, and RESTful data operations
- Built a dynamic CV Builder feature with 4 customizable templates, live preview, and one-click PDF export using jsPDF and html2canvas
- Created advanced filtering, search, and sorting functionality across opportunity categories (location, deadline, work type)
- Developed a personal dashboard with analytics, application tracking (Kanban-style board), and saved opportunities synced across devices
- Managed version control and deployment pipeline using Git, GitHub, and Vercel

Nexus – Investor & Entrepreneur Collaboration Platform | *React.js, MongoDB*

[Live Demo](#)

- Implemented the React.js frontend and worked with MongoDB Atlas for data storage across a 3-week full-stack platform build
- Contributed to features including role-based dashboards, meeting scheduling, and document uploads

Task Management App | *React.js, Supabase*

[Live Demo](#)

- Built a responsive task management application with React Hooks and a component-based architecture
- Implemented CRUD operations and integrated Supabase Authentication, using SQL-based queries for data access

Truck Dispatching Management System | *React.js, MongoDB*

[Live Demo](#)

- Enhanced a responsive React frontend and integrated REST APIs, working with a MongoDB-backed system
- Implemented JWT-based authentication and used Git/GitHub for team collaboration

Personal Portfolio Website | *HTML, CSS, JavaScript*

[Live Demo](#)

- Designed and developed a responsive portfolio website to showcase projects and technical skills
- Optimized layout and performance across different screen sizes for a seamless user experience

Personal Portfolio Website (React) | *React.js, Tailwind CSS, Framer Motion*

[Live Demo](#)

- Built a fully responsive, component-based portfolio with Framer Motion animations for section transitions and hover effects
- Styled with Tailwind CSS utility classes and implemented a functional, validated contact form with mobile-responsive navigation

TECHNICAL SKILLS

Web Languages: Java, JavaScript (ES6), HTML5, CSS3, SQL, Python

Frontend: React.js, Next.js, jQuery, Bootstrap, Tailwind CSS

Backend & Databases: Node.js, NestJS, Express.js, MongoDB, PostgreSQL, MySQL, Supabase, Drizzle ORM

WordPress & CMS: WordPress, WooCommerce, Elementor Page Builder

APIs & Tools: REST APIs, JSON, Git, GitHub, VS Code, Postman, Browser Debugging Tools

Practices: Software Development Life Cycle (SDLC), Responsive & Cross-Browser Web Design, Agile

CERTIFICATIONS

WordPress Development — DigiSkills 3.0 (Virtual University / Govt. of Pakistan)

Freelancing, Graphic Designing, Data Analytics & Business Intelligence — DigiSkills (Virtual University / Govt. of Pakistan)
